Community Spotlight - Public Plans Community

The Public Plans Community is charged with advancing the sound actuarial and governance practice in the public sector retirement and employee benefits arenas. This CCA Community acts as a discussion forum as well as a repository for intelligence and analyses. Community activities to date have focused on subjecting the emerging views of the [Governmental Accounting Standards Board](#) on postemployment benefits to actuarial scrutiny.

Ongoing projects include comment letters to ASB in response to draft standards.

If you work in the public plans area, you owe it to yourself to play an active part helping shape this vital area of actuarial practice.
