

CONFERENCE OF CONSULTING ACTUARIES

Actuaries Manage Risk. Consultants Create Trust. We do Both.

Company Profile

The Conference of Consulting Actuaries (CCA) is a leading provider of continuing education and professional development for actuaries.

The CCA's educational content can provide an opportunity for regional and local HFMA chapters to expose their members to the most current and topical information regarding the management of risk-based payment issues for healthcare providers.

Example Session Titles

Actuaries and Health Providers: Connecting and Delivering Value (Basic/Intermediate)

- Insurance risk fundamentals
- Enterprise risk and revenue
- Value-based performance contracting and measurement
- Direct-to-employer purchasing

How Providers Are, or Should Be, Leveraging Actuaries (Basic/Intermediate)

- Financial management
- Analytics and technology
- Population health management
- Strategy and organization

Price Transparency (Intermediate/Advanced)

- Payer transparency
- Provider transparency
- Consumer tools

CCA provides webinars, virtual and in-person meetings with educational content related to actuarial matters that impact hospitals, physician groups, and integrated delivery systems. Look for actuaries with the FCA (Fellow of the Conference of Actuaries) or ACA (Associate of the Conference of Actuaries) credentials.
